

1**True/False**

Indicate whether the statement is true or false.

- _____ 1. Lucy Beaman Hobbs Taylor was a teacher first and then became interested in medicine.
- _____ 2. Ida Gray, the first African American woman to earn a dental degree, graduated from the University of Ohio, School of Dentistry.
- _____ 3. The dental health team approach to dentistry improves efficiencies and the overall patient experience.
- _____ 4. Beginning in the very earliest of times, dental work was done by physicians.
- _____ 5. Aristotle described the four fluids in the body as blood, black bile, yellow bile, and phlegm.
- _____ 6. Pierre Fauchard recorded all known information on dentistry in a book.
- _____ 7. Paul Revere was the favorite dentist of George Washington.
- _____ 8. The first dental engine with functioning handpiece, motor, and foot treadle was invented by Horace Hayden.
- _____ 9. An endodontist treats pathologies of the dental pulp and surrounding tissues.
- _____ 10. A pedodontist deals with the diagnosis and treatment of diseases of the supporting and surrounding structures of the tooth.
- _____ 11. Depending on the dental school, a DDS or a DMD degree is granted.
- _____ 12. Dentists can choose whether to take and pass a written or a clinical examination in the state in which they choose to practice dentistry.
- _____ 13. All dental laboratory technicians work in dental offices.
- _____ 14. The Oath of Hippocrates is the basis of the code of ethics medical and dental professions use when caring for patients.

Multiple Choice

Identify the choice that best completes the statement or answers the question.

- _____ 1. The dental specialty that promotes the prevention of dental disease is _____.
 - a. oral and maxillofacial pathology
 - b. dentofacial orthopedics
 - c. dental public health
 - d. forensic dentistry
- _____ 2. The dental specialist who corrects malocclusion is the _____.
 - a. orthodontist
 - b. pedodontist
 - c. periodontist
 - d. prosthodontist

- _____ 16. Who is regarded as the "grand old man of dentistry"?
- a. Chapin Harris
 - b. John Greenwood
 - c. G. V. Black
 - d. Pierre Fauchard
- _____ 17. The first woman to graduate from dental school was _____.
- a. Lucy Hobbs
 - b. Juliet Southard
 - c. Roberta Freeman
 - d. none of the above
- _____ 18. The first African American to graduate from dental school was _____.
- a. Robert Freeman
 - b. Chapin Harris
 - c. Arthur Black
 - d. Lucy Hobbs
- _____ 19. The American Dental Association was established in New York in _____.
- a. 1839
 - b. 1840
 - c. 1856
 - d. 1859
- _____ 20. The American Dental Association recognizes _____ specialties.
- a. five
 - b. six
 - c. seven
 - d. nine
- _____ 21. The specialty that is concerned with preventing oral disease and diagnosing and treating oral care issues for children from birth through adolescence is _____.
- a. dental public health
 - b. orthodontics
 - c. periodontics
 - d. pediatric dentistry
- _____ 22. The specialty that is concerned with the diagnosis and nature of the diseases affecting the oral cavity is _____.
- a. oral pathology
 - b. orthodontics
 - c. periodontics
 - d. pediatric dentistry
- _____ 23. The specialty concerned with diagnosing and treating the diseases of the supporting and surrounding tissues of the tooth is _____.
- a. endodontics
 - b. oral and maxillofacial surgery
 - c. periodontics
 - d. prosthodontics
- _____ 24. The specialty concerned with the diagnosis, supervision, guidance, and correction of malocclusion in the dentofacial structures is _____.
- a. oral pathology
 - b. orthodontics
 - c. periodontics
 - d. pediatric dentistry
- _____ 25. The specialty concerned with the pathology and morphology of the dental pulp and surrounding tissues is _____.
- a. orthodontics
 - b. pediatric dentistry
 - c. endodontics
 - d. periodontics
- _____ 26. The specialty that is concerned with preventing dental disease and that works with the community to promote dental health is _____.
- a. orthodontics
 - b. dental public health
 - c. oral pathology
 - d. pediatric dentistry
- _____ 27. The specialty that is concerned with the diagnosis, restoration, and maintenance of oral functions is _____.
- a. orthodontics
 - b. prosthodontics
 - c. pediatric dentistry
 - d. periodontics

- _____ 28. The specialty that is concerned with the diagnosis and surgical treatment of the oral and maxillofacial region is _____.
a. periodontics
b. prosthodontics
c. oral and maxillofacial surgery
d. oral pathology
- _____ 29. The dental team member who is responsible for cleaning, providing dental prophylaxis, removing deposits from the teeth, and patient education is _____.
a. the dental hygienist
b. the dental assistant
c. both a and b
d. neither a nor b
- _____ 30. Dr. _____ is credited with hiring the first female dental assistant.
a. Kells
b. G. V. Black
c. John Greenwood
d. Robert Freeman
- _____ 31. The organization that certifies dental assistants is the _____.
a. ADA
b. ADAA
c. ADHA
d. DANB
- _____ 32. In 1924, Juliette Southard founded the _____.
a. ADA
b. ADAA
c. ADHA
d. DANB
- _____ 33. Dental laboratory technicians fabricate _____.
1. amalgam restorations
2. full dentures
3. gold crowns and bridges
4. partial dentures
5. porcelain veneers
a. all of the above
b. 1 only
c. 2, 3, 4, 5
d. none of the above
- _____ 34. Beginning in the earliest times, an Egyptian doctor of teeth, named _____, was the first dentist recorded, and he practiced in 3000 BC.
a. Hippocrates
b. Hesi-Re
c. Guy de Chauliac
d. G.V. Black
- _____ 35. A graduate of Harvard, George Franklin Grant was a specialist in the cleft palate; however, he is also well known for this invention.
a. The toothbrush
b. The golf tee
c. Spinning wheel foot treadle
d. The reclining chair

Matching

There are professional organizations that represent the dental team. Match the organization with the associated representation.

- a. This organization represents those who provide extra oral services such as fabricating gold and porcelain restorations, partials, and full dentures.
b. In 1859, 25 delegates gathered in Niagara Falls, New York, and organized this association.
c. This organization is founded on the principles of education, efficiency, service, and loyalty.
d. Formed in 1923 in Cleveland, Ohio, this organization works to promote oral health.
- _____ 1. ADA

Name: _____

ID: A

- _____ 2. ADAA
- _____ 3. ADHA
- _____ 4. ADLTA

The American Dental Association recognizes nine specialties. Match the dental specialty with the description that best represents the practitioner's role as a dental specialist.

- a. The specialty concerned with the diagnosis and nature of the diseases affecting the oral cavity
 - b. The specialty concerned with the diagnosis, supervision, guidance, and correction of the malocclusion in the dentofacial structures
 - c. The specialty concerned with prevention of dental disease and promotion of better dental health in the community
 - d. The specialty concerned with the production and interpretation of images and data produced by all modalities of radiant energy that are used for the diagnosis
- _____ 5. Dental public health
 - _____ 6. Oral and maxillofacial pathology
 - _____ 7. Oral and maxillofacial radiology
 - _____ 8. Orthodontics and dentofacial orthopedics

Match the professional organization to each member of the dental team.

- | | |
|---------|---------|
| a. ADA | c. ADAA |
| b. ADHA | d. NADL |
- _____ 9. Dental laboratory technicians
 - _____ 10. Dentists
 - _____ 11. Dental assistants
 - _____ 12. Dental hygienists

A timeline was established to honor those who contributed to the rich history of dentistry, which began in the earliest of times. Match the time with the event.

- | | |
|--------------|---------|
| a. 3000 B.C. | c. 1885 |
| b. 1452? 519 | d. 1895 |
- _____ 13. Tooth morphology defined
 - _____ 14. X-rays discovered
 - _____ 15. First record of a dentist by name
 - _____ 16. Ready in Attendance?

1

Answer Section**TRUE/FALSE**

1. ANS: T
She was the first woman to graduate from a recognized dental college.

PTS: 1 DIF: M
OBJ: Identify the people who promoted education and organized dentistry.
TOP: Education and Organized Dentistry
2. ANS: F
Ida Gray, the first African American woman to earn a dental degree, graduated from the University of Michigan, School of Dentistry.

PTS: 1 DIF: M
OBJ: Identify the people who promoted education and organized dentistry.
TOP: Education and Organized Dentistry
3. ANS: T
The dental health team consists of the dentist, dental assistant, dental hygienist, and dental laboratory technician, as well as administrative dental staff.

PTS: 1 DIF: E
OBJ: Describe, generally, the career skills performed by dental assistants, dental hygienists, and dental laboratory technicians. TOP: The Dental Team
4. ANS: T
The first recorded dentist was Hesi-Re, who practiced in 3000 BC.

PTS: 1 DIF: E
OBJ: Review dental disease and dentistry from the beginning of time.
TOP: History of Dentistry
5. ANS: F
Hippocrates described the four fluids in the body as blood, black bile, yellow bile, and phlegm.

PTS: 1 DIF: E
OBJ: Review dental disease and dentistry from the beginning of time.
TOP: History of Dentistry
6. ANS: T
Fauchard challenged the causes of tooth decay put forth and promoted the treatment of diseased dental tissue.

PTS: 1 DIF: E
OBJ: Name the individuals who had a great impact on the profession of dentistry.
TOP: Later Progress of Dentistry
7. ANS: F
John Greenwood was the favorite dentist of George Washington.

PTS: 1 DIF: E
OBJ: Name the individuals who had a great impact on the profession of dentistry.
TOP: Progress of Dentistry in the United States

8. ANS: F

The first dental engine with functioning handpiece, motor, and foot treadle was invented by James Morrison.

PTS: 1 DIF: M

OBJ: Name the individuals who had a great impact on the profession of dentistry.

TOP: Progress of Dentistry in the United States

9. ANS: T

A patient in need of a root canal would see an endodontist.

PTS: 1 DIF: M OBJ: Identify the nine specialties of dentistry.

TOP: Dentists

10. ANS: F

A periodontist deals with the diagnosis and treatment of diseases of the supporting and surrounding structures of the tooth.

PTS: 1 DIF: M OBJ: Identify the nine specialties of dentistry.

TOP: Dentists

11. ANS: T

Doctor of Dental Surgery (DDS) or Doctor of Dental Medicine (DMD)

PTS: 1 DIF: E OBJ: Explain what DDS and DMD stand for.

TOP: Dentists

12. ANS: F

Dentists are required to attend 3 to 4 years of undergraduate work and 4 years of dental school. All dentists must take and pass written and clinical state exams.

PTS: 1 DIF: E

OBJ: List the education required for, and the professional organizations that represent, each dental career path.

TOP: Dentists

13. ANS: F

Dental laboratory technicians may work in dental offices, but they may also work in privately owned dental laboratories.

PTS: 1 DIF: E

OBJ: Describe, generally, the career skills performed by dental assistants, dental hygienists, and dental laboratory technicians.

TOP: Dental Laboratory Technicians

14. ANS: T

The Oath of Hippocrates is the code maintained for all health professions.

PTS: 1 DIF: E

OBJ: Review dental disease and dentistry from the beginning of time.

TOP: History of Dentistry

MULTIPLE CHOICE

1. ANS: C

The public health dentist works with the community to promote dental health.

PTS: 1 DIF: M OBJ: Identify the nine specialties of dentistry.

TOP: Dentists

2. ANS: A

The orthodontist places braces for straightening the teeth.

PTS: 1

DIF: M

OBJ: Identify the nine specialties of dentistry.

TOP: Dentists

3. ANS: B

The prosthodontist is concerned with the diagnosis and treatment of the diseases of the supporting and surrounding tissues of the tooth.

PTS: 1

DIF: M

OBJ: Identify the nine specialties of dentistry.

TOP: Dentists

4. ANS: D

The prosthodontist diagnoses, restores, and maintains oral functions.

PTS: 1

DIF: M

OBJ: Identify the nine specialties of dentistry.

TOP: Dentists

5. ANS: A

A person who needs to have his wisdom teeth removed may see an oral and maxillofacial surgeon.

PTS: 1

DIF: M

OBJ: Identify the nine specialties of dentistry.

TOP: Dentists

6. ANS: B

The individual responsible for inventing the dental chairs is Josiah Flagg.

PTS: 1

DIF: E

OBJ: Name the individuals who had a great impact on the profession of dentistry.

TOP: Progress of Dentistry in the United States

7. ANS: A

The individual responsible for inventing the dental foot engine is James Morrison.

PTS: 1

DIF: M

OBJ: Name the individuals who had a great impact on the profession of dentistry.

TOP: Progress of Dentistry in the United States

8. ANS: C

The individual responsible for discovering x-rays is Wilhelm Conrad Roentgen.

PTS: 1

DIF: M

OBJ: Identify the items on the timeline of dental history.

TOP: Later Progress of Dentistry

9. ANS: C

The first African American woman to graduate from a recognized dental school was Ida Gray.

PTS: 1

DIF: M

OBJ: Identify the people who promoted education and organized dentistry.

TOP: Education and Organized Dentistry

10. ANS: A

The professional organization for dental assistants is the American Dental Assistants Association (ADAA).

PTS: 1

DIF: E

OBJ: List the education required for, and the professional organizations that represent, each dental career path.

TOP: Dental Assistants

11. ANS: C
Hippocrates is the father of medicine.
- PTS: 1 DIF: E
OBJ: Review dental disease and dentistry from the beginning of time.
TOP: History of Dentistry
12. ANS: D
Guy de Chauliac is the French surgeon who wrote the rules of oral hygiene. His rules were based on sound logic, and many of his theories are still used today.
- PTS: 1 DIF: M
OBJ: Name the individuals who had a great impact on the profession of dentistry.
TOP: Later Progress of Dentistry
13. ANS: C
Pierre Fauchard perfected several dental treatments still in use today and developed step-by-step procedures for dental treatments. He is often referred to as the founder of modern dentistry.
- PTS: 1 DIF: E
OBJ: Name the individuals who had a great impact on the profession of dentistry.
